**WHITE BACK DUPLEX BOARD**

**GREYBACK DUPLEX BOARD**

**WHITE TOP KRAFT LINER**

## COATED WHITEBACK DUPLEX BOARD

Coated whiteback duplex boards are created with white exterior and interior layers. Coated with bright white pigments, it provides a glossy appearance and the feature also facilitates for better-quality printability. The fabricated end product, as the name suggest, is made out of white virgin waste pulp.

### SPECIFICATIONS OF COATED WHITEBACK DUPLEX BOARD

- Eight level composition
- Made from recycled paper pulp
- Eco-friendly
- Food grade product
- Uniform coating

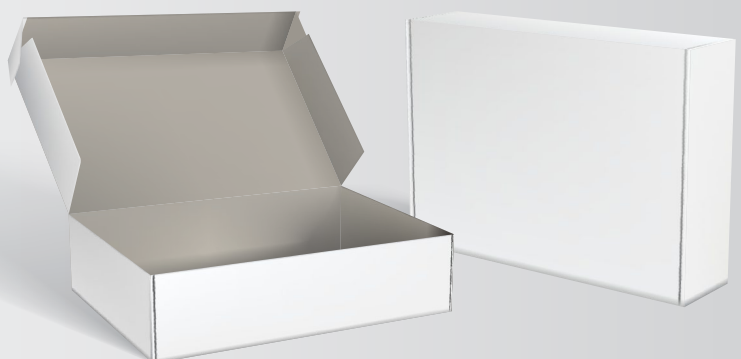

## COATED GREYBACK DUPLEX BOARD

Coated greyback duplex boards are created with white exterior and grey interior layer. Coated with bright pulp pigments, it provides a glossy appearance and the feature also facilitates for better-quality printability. The exteriors are calendared on one side, providing a white and smooth surface suited for offset printing and a coated grey texture inside.

### SPECIFICATIONS OF COATED GREYBACK DUPLEX BOARD

- Multilevel composition
- High-quality raw material
- Eco-friendly production
- Completely hygienic product
